PREPARING POWERPOINT SLIDESHOWS

- Effective August 15, 2020, all program materials submitted to LSO CPD are required to be in compliance with the *Accessibility for Ontarians with Disabilities Act (AODA), 2005*. When submitting your PowerPoint slideshows, please ensure they meet AODA standards
- PowerPoint slides are for presentation purposes only. They are made available for registrants to download but are not published in program materials
- Create your PowerPoint slideshow in a 16 x 9 aspect ratio. This is optimal for the Learning Centre
- Do not use animations, transitions, and on-click commands (e.g., fly-ins). The webcast only captures static images
- Do not include hidden slides as this function is not compatible with our system
- Delete non-required slides from the file before submission
- Slides must be received 2 business days before the program to allow for testing. They will be posted to the webcast server for registrants to download
- Do not include any video or audio in PowerPoints. Submit these as separate items with instructions when to play
- Do not include any hyperlinks to websites
- Do not include copyrighted materials
- Include only one concept on each slide
