

Doctor of Laws, honoris causa, March 22, 1974.

*Roland Michener*

---

Mr. Treasurer--

The Right Honourable Daniel Roland Michener enjoys wide renown based upon remarkable achievement in divers fields. The promise of early academic success was crowned by scholarly attainment; devotion to the practice of law has been rewarded by the satisfaction of over thirty years of service to his clients; the hazards of political contest were tempered by the confidence of the citizens and transformed by the wisdom of his colleagues who elected him Speaker of the House of Commons. His outstanding abilities, already tested and confirmed, were conspicuously engaged for the benefit and honour of his country when he was Canadian High Commissioner to India and pre-eminently when as Governor General he represented Her Majesty the Queen. In addition to these accomplishments he has, by striking example, encouraged athletic vigour and physical discipline.

Mr. Treasurer, I request you to exercise the authority vested in you by Convocation to admit Daniel Roland Michener to the degree of Doctor of Laws, honoris causa.
